

# Reaves Long Term Value Strategy

## INVESTMENT OBJECTIVE

To provide long-term growth in capital by investing in the common stock of infrastructure companies with the potential to generate steady growth in cash flow, earnings, and dividends.

## INVESTMENT DESCRIPTION

The strategy seeks to own companies operating in infrastructure-related sectors which provide services essential to the functioning of the modern economy.

## INVESTMENT CHARACTERISTICS

- High barriers to entry
- Limited competition
- Low risk of bankruptcy
- Sustainable cash flow
- Cyclically defensive

## TOTAL FIRM AUM

\$4.1 billion as of 12/31/24

**Reaves**

## ABOUT US

**Reaves Asset Management has over four decades of experience investing in publicly listed equities. Reaves is a privately held, independently owned company.**

Our managed portfolios, designed to provide both income and capital appreciation, have historically generated attractive risk-adjusted returns with defensive characteristics.

The team at Reaves invests in the same strategies as our clients, most notably through the firm's employee profit-sharing trust. For more information about Reaves Asset Management, please visit [www.reavesam.com](http://www.reavesam.com).

## INVESTMENT PROCESS

Fundamental, bottom-up research is utilized by an experienced team of portfolio managers and analysts with expertise in regulated assets such as electric, gas, and water utilities, communication assets including wireless service providers, wireless towers, data centers, and cable/broadband systems, and transportation assets including railroads, oil and gas pipelines, and distribution logistics.

Current and potential investment theses are modelled and formally debated during weekly research meetings. Investment information is sourced through earnings calls, industry conferences, company management team meetings, third party research reports, and industry experts.

## PORTFOLIO MANAGERS

<sup>+</sup>All data is for the Reaves LTV Wrap Composite

Gross-of-fees returns are considered "pure" gross-of-fees returns and are presented before the bundled wrap and custodial fees.

Due to compliance requirements, the net-of-fees calculation is computed based on the highest annual fee assigned by any wrap sponsor who utilizes this portfolio in an investment wrap program (300 basis points from 1/1/03 through 12/31/16 and, effective 1/1/2017, 250 basis points). See Form ADV Part 2A for Reaves' Standard Advisory Fee Schedule. Please see endnotes for important disclosures and definitions.

Reaves Asset Management is an investment adviser registered with the Securities and Exchange Commission under the Investment Advisers Act of 1940. Reaves is a privately held, independently owned "S" corporation organized under the laws of the State of Delaware.

Reaves Asset Management claims compliance with the Global Investment Performance Standards (GIPS®). GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein.

Reaves' Long Term Value Strategy (Reaves LTV) seeks a high risk-adjusted total return. The strategy tends to be invested in relatively larger companies with strong balance sheets, good cash flow and a history of dividend growth. Core positions are accumulated in financially strong, high-quality companies and generally have the following characteristics: strong management, above industry-average growth rates, large/mid-market capitalization and low price-earnings multiples.

Reaves' Long Term Value Strategy (LTV) is represented by the LTV SMA Wrap Composite. This composite contains those LTV discretionary portfolios with wrap (bundled) fees. Wrap accounts are charged a bundled fee which includes the wrap sponsor fee, as well as Reaves' investment advisory fee. Gross-of-fees returns are considered "pure" gross-of-fees returns and are presented before the bundled wrap and custodial fees. Due to compliance requirements, the net-of-fees calculation is computed based on the highest annual fee assigned by any wrap sponsor who utilizes this portfolio in an investment wrap program (300 basis points from 1/1/03 through 12/31/16 and, effective 1/1/2017, 250 basis points). LTV SMA Wrap Composite performance consists of time-weighted returns and it includes the reinvestment of all dividends and other earnings. The inception date of the composite is January 2003; however, the composite was created in January 2013. This composite has been managed in a similar manner to the Reaves LTV ERISA Composite which ended in December of 2019. The LTV SMA Wrap Composite does not represent all of Reaves' assets under management.

The Reaves LTV Strategy is utilized across multiple institutional and individual accounts managed by Reaves (including the LTV SMA Wrap Composite) with assets under management totaling approximately \$281 million as of 12/31/24. For information about the performance of Reaves LTV Strategy accounts included in other composites, please contact us.

Reaves' portfolio characteristics, holdings and sector weightings are subject to change at any time and, unless otherwise noted, are based on our Long Term Value Strategy. Holdings, sector weightings and portfolio characteristics of individual client portfolios may differ, sometimes significantly, from those shown. This information does not constitute, and should not be construed as, investment advice or recommendations with respect to the securities and sectors listed.

The Top 10 Holdings refers to the top 10 largest holdings in the strategy.

The Top 5 Contributors and Detractors are determined by stock impact. Stock impact is determined by how much that individual stock either increased or decreased the total performance for a specific time period.

**Rolling returns** reflect the total returns from both capital appreciation and dividends on a continuously held investment over a number of consecutive periods, calculated monthly.

**Market capitalization** refers to the total dollar market value of a company's outstanding shares of stock. Commonly referred to as "market cap," it is calculated by multiplying the total number of a company's outstanding shares by the current market price of one share. The source of Reaves' LTV Wrap market cap data is Bloomberg.

**The MSCI USA Infrastructure Index** captures the opportunity set of U.S. companies that are owners or operators of infrastructure assets. Constituents are selected from the equity universe of the MSCI USA Index, the parent index, which covers large and mid-cap securities in the U.S. All index constituents are categorized in one of thirteen sub-industries, which MSCI aggregates and groups into five infrastructure sectors: Telecommunications, Utilities, Energy, Transportation and Social. Reaves' portfolios may at times be more diversified by including companies classified as operating in the Real Estate and Industrials sectors.

The MSCI USA Infrastructure Index was launched on Jan 22, 2008. Data prior to the launch date is back-tested data (i.e., calculations of how the index might have performed over that time period had the index existed). There are frequently material differences between back-tested performance and actual results. Past performance -- whether actual or back-tested -- is no indication or guarantee of future performance.

**The S&P 500 Index** is a capitalization-weighted index of 500 stocks designed to measure performance of the broad domestic economy through changes in the aggregate market value of 500 stocks representing all major industries. The typical Reaves portfolio includes a significant percentage of assets that are also found in the S&P 500. However, Reaves' portfolios are far less diversified, resulting in higher sector concentrations than found in the broad-based S&P 500 Index.

**CFA** - Chartered Financial Analyst is a professional designation issued by the CFA Institute. Upon successful completion of the program the candidate is awarded a "CFA charter" and becomes a "CFA Charterholder". CFA® and Chartered Financial Analyst® are registered trademarks owned by CFA Institute.

**Past results do not guarantee future performance.** Further, the investment return and principal value of an investment will fluctuate; thus, investor's equity, when liquidated, may be worth more or less than the original cost. This document provides only impersonal advice and/or statistical data and is not intended to meet objectives or suitability requirements of any specific individual or account.

**All investments involve risk, including loss of principal.**

**All data is presented in U.S. dollars.**

**Cash is cash and cash equivalents.**

**An investor cannot invest directly in an index.**

**Important Tax Information:** Reaves Asset Management and its employees are not in the business of providing tax or legal advice to taxpayers. Any such taxpayer should seek advice based on the taxpayer's own individual circumstances from an independent tax adviser.

**Fees:** Net performance reflects the deduction of advisory fees which are described in detail in our Form ADV Part 2A.

Please contact your financial professional for a copy of Reaves' Form ADV Part 2A and Form CRS.
